# Field station intake | cycle 8

Synthetic survey sheet | source page 01

Record labels as printed. A dash denotes a measured zero; an empty box means no reading was supplied.

## Crate register

| Crate | Seal | Condition |
|---|---|---|
| North-4 | nQ/17 | re-sealed |
| East-2 | EQ/17 | scuffed |
| Hold for review | | |

*1. Seal spellings retain case.*

# Workshop ledger | issue 14

Synthetic survey sheet  |  source page 02

Copy the stamped values verbatim, including the shop's original spelling and punctuation.

## Calibration records

| Bench | Reference | Offset | Disposition |
|---|---|---|---|
| A-03 | R8l/24 | +0.04 | checked |
| A-04 | R81/24 | -0.00 | recheck! |
| B-11 | um-6 | — | no drift |
| | β-2 | 0.00 | pending |
| Source < & code | | reciept | keep literal |

*2. The long dash in the Offset column is not a minus sign.*

# Canal survey | sheet 6

Synthetic survey sheet | source page 03

Survey notes follow the map grid. Table order is left panel, then right panel.

## Gate measurements

| Gate | Chainage | Rise | Flow | Flag |
|---|---|---|---|---|
| G-1 | 0+00 | 1.2 m | 4.0 | open |
| G-2 | 0+85 | 1.0 m | 3.8 | inspect |
| G-3 | 1+70 | 0.8 m | | — |
| Reference datum: MSL-2 | | | | |

*a. Blank Flow at G-3 is unreported, not zero.*

## Sample tags

| Collection | | Review | |
|---|---|---|---|
| **Station** | **Sample ID** | **pH** | **Seal** |
| C-09 | c-09/a | 7.01 | intact |

*b. The slash and case are part of each sample ID.*
